

Lightning Launches Streamlined User Interface: Familiar Design, Enhanced Experience

Lightning is thrilled to showcase its newly designed user interface, set to be available to all users in approximately ten days. This streamlined update maintains all functions and buttons in their exact locations, ensuring an effortless transition and an even more intuitive user experience.

For those interested in an early look, you can navigate to

<https://qbtest.lightningpos.com/>

to explore and use the updated interface now. With this upgrade, Lightning reaffirms its commitment to delivering powerful, user-friendly solutions that enhance our clients' productivity and success.

Thank you.

The Computer Perfect Team.
