Lightning's Store Transfer Feature

Computer Perfect has made it really simple for Franchises and Multi-store retailers to transfer products between retail stores.

Initiating a store transfer is easy. If you are registered as a multi-store user, you will find the Store Transfer option available as shown alongside.

When accepted by the receiving store, the quantities on hand are instantly updated. No need for separate reconciliation of Inventory as the adjustment is automatic.

All done at the speed of Lightning!
