Sign In

The screenshot shows the Lightning Online POS sign-in interface. At the top, it says "LIGHTNING ONLINE POINT OF SALE". Below this, a message states "You have successfully logged out". The sign-in form includes fields for "Employee ID", "Password", and "Store #". A note indicates "Passwords are Case Sensitive". There are "Clear" and "Submit" buttons. A checkbox option is available: "Let us remember your Employee ID, Password & Store Number." A disclaimer at the bottom reads: "*If you share this computer with others we strongly recommend you not check this box." On the right side, a "Recent Enhancements" section lists updates: "Inventory Item Script" (prompting a message for bulk purchases), "Data Entry Screens" (redesigning customer, inventory, vendor, and employee screens), and "The Employee Security screen" (improving access/no-access settings). A "Great Feature" section is partially visible at the bottom right.

Technical Support Services

Unmatched Technical Support

You call, we answer.

Our technical service support is our badge of honor.

We have an unbeaten record of *second ring response, seven days a week*, including holidays, with zero hold times.

An actual technical expert who is well equipped and eager to help will pick up the phone and respond to your specific query.

Whether it is simple or complex, you will receive undivided attention and a fully satisfactory solution. Every time. **No mindnumbing robots, no never-ending menus, no frustration.** Just great technical service support.

Really. So, if you are looking for an asterisk, there is none.

How many others can claim this?

Emergency Mode

What if my internet connection is down? Lightning has you covered.

Since Lightning Online Point of Sale is contingent on your store's internet connection, what happens if your store or one of our multiple servers experiences a connectivity issue?

With Lightning Emergency Mode, **your business can continue to check-out customers** while the connectivity issues are being resolved in the background.*

* Limitations apply

A screenshot of the Lightning Emergency Mode Point of Sale (POS) interface. The interface is divided into several sections. At the top left, there's a header area with "Thu 12/31/15" and "Legal Date 12/31/1994". In the center, a large box displays "Emergency Mode" in red text. To the right, a summary box shows "Sub - Total \$43.98", "Sales Tax \$3.91", "Deposits \$0.00", and a bold "Total \$47.87". Below the header, there's a section for "SKU / COMMAND" with a "Misc." button and "Total Items: 4". A table lists two items: "1 14 HANDS CHARDONNAY 750ML" with a quantity of 1 and price of 10.99, and "2 DANCING BULL ZINFANDEL 750ML" with a quantity of 3 and price of 10.99. The bottom of the screen features a navigation bar with buttons for "Log Off", "ENTER - End Transaction", "F2 INVENTORY", "F7 DISCOUNT", "F3 CUSTOMER", "CLR SCREEN", "BLANK LINE", "EXTRAS", and "TOUCH MENU". At the very bottom, it says "Merge Emergency Mode Data to Online System" and "Release Date: 12/29/2015". The store number "Store #: 7365" is visible in the bottom right corner.

Lightning Digital Marketing

Lightning Online P.O.S. retailers can take advantage of an array of P.O.S. technologies that offers to advertise products and services to better connect with their customers.

The technologies, **Lightning Enhanced Pole Display** & the **Lightning In-Store Kiosk** are provided at no fee, in most situations, to merchants who subscribe to the Lightning Online P.O.S. system.

Enhanced Pole Display

Our innovative enhanced pole display utilizes an 8" tablet for a perfectly sized crisp visual experience for transaction detail at the point of check out.

When the register is idle, streaming ads (non-audio) featuring products available in most wine & spirit retailers, will loop in intervals in an attractive and vivid imagery. There is no upkeep on your end as all images are maintained by us.

In-Store Kiosk:

Our Lightning In-Store Kiosk, utilizes your store's data, in real-time, which provides an interactive collaboration between the store and your customer. It's an opportunity to educate, inform, inspire and promote your business.

The Lightning Kiosk allows your customer to quickly perform inventory look-up, price checks, gift card balance checks, loyalty status, food pairing, sign-up new customers, and promote specific products or new arrivals.

Computer Perfect, the developers of the Lightning P.O.S. Technology Platform is more than a point of sale company, as we encompass technologies retailers need, from the In-Store point of sale, E-Commerce, Enhanced Pole Displays, and Kiosk Services. Elevate your business with Lightning.

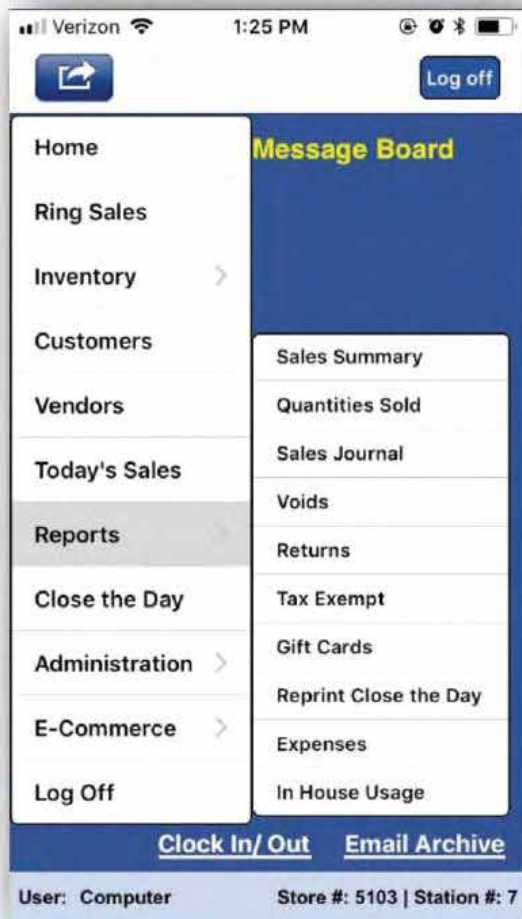

iPad & iPhone

Ring Sales, process credit cards, check today's sales, run sales reports, adjust employee security settings, have full access to your inventory, and more ... in realtime. Exactly like Lightning Online Point of Sale for your browser, Lightning for the iPad and iPhone displays the identical information with the same look and feel. In the palm of your hand. Real-time data, from ringing sales, running sales reports, and more.

Feel the power of Lightning Online Point of Sale for the iPad and iPhone.
