THE POWER OF LIGHTNING E-COMMERCE.

Is your website ADA compliant?

The Americans with Disabilities Act (ADA) prohibits discrimination against people with disabilities and requires all businesses that serve the public (including websites) to comply with accessible design standards that ensure effective communication with people who have hearing, vision, speech, or other impairments.

Computer Perfect has partnered with AccessiBe, developers of an AI tool that ensures your site meets the ADA guidelines. For your protection, AccessiBe also provides your website with an Accessibility Statement, an example of which can be found at Accessibility Statement (accessibe.com).

Their pricing schedule starts at $49 per month for a Standard Package.

For additional information, we recommend you visit www.accessibe.com and/or talk to one of their sales representatives. Once you sign up, you will be given an API key which you will need to copy into your E-Com / Global Setup / ADA option. It's as simple as that.

Cheers!
